

VCI GUN SOCK

PRODUCT BENEFITS:

- Advanced Vapor Technology
- Lasts up to 3 years
- Fits pistols, shotguns, scoped rifles to 52"
- No oily film or scent residue
- Safe on all metals, plastics & finishes

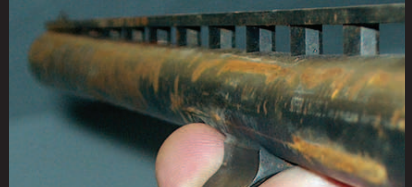

The Inhibitor VCI Gun Sock provides constant protection from rust and corrosion during transportation and storage of firearms. The material is impregnated with The Inhibitor's advanced Vapor Technology which penetrates into the smallest cracks and crevices, neutralizing moisture and providing an invisible barrier from rust and corrosion. The VCI Gun Sock provides superior corrosion protection when compared to traditional silicone gun socks. Where the use of silicone may actually hold moisture against metal surfaces, these innovative products prevent any residual moisture from ever starting the corrosion process. For the sportsmen who hunt in fowl weather conditions, The Inhibitor VCI lined products are a must for protecting their firearms.

Without The Inhibitor

With The Inhibitor

How The Inhibitor Works

■ Moisture ■ Oxygen ■ Inhibitor's Invisible Barrier

The chemical compound used in The Inhibitor System is called VCI (Volatile Corrosion Inhibitor). The VCI slowly vaporizes into an enclosed area, placing an invisible barrier over a wide variety of metal surfaces. These vapors are capable of penetrating into the smallest cracks and crevices, blending with hydrogen and oxygen (moisture), rendering them incapable of starting the corrosion process. The Inhibitor's VCI has a proven track record of protecting the entire spectrum of both ferrous and non-ferrous metals such as Iron, Brass, Steel, Bronze, Aluminum and many others.

VCI GUN SOCK

DIRECTIONS FOR USE:

Slide UNLOADED firearm into VCI Gun Sock barrel first. Pull draw string tight to enclose gun. The advanced vapor technology immediately begins to penetrate through the barrel, chamber, and firing mechanism to neutralize the corrosion effects of any moisture. Easily slips over pistols, shotguns and scoped rifles to 52". For the ultimate in rust and corrosion protection, use The Inhibitor V80 VCI/Oil Blend and The Inhibitor VCI Chamber plug as well.

PART NO.	DESCRIPTION	UPC	CASE QTY.	CASE DIMENSIONS in. (L x W x H)	CUBE ft3	CASE WEIGHT lb.
1572-00	The Inhibitor VCI Gun Sock	0 76076 01572 9	6	9 x 8 x 4	.17	2.7
